

Tank-mix Sheet

Revised April 2010

Harvest®

Please note that physical compatibilities may not be approved tank-mixes. The tests do not check for any adverse crop phytotoxicity or for the biological efficacy of the individual components when applied in a tank-mix. Bayer CropScience gives no warranty and accepts no liability in respect of physical compatibilities; therefore, use is at grower's own risk.

All the requirements or restrictions on other product labels must be adhered to when tank-mixing with Harvest®. Contact Bayer CropScience for full details.

Harvest can only be applied with any ONE of the products listed below:

Fungicides		
Electis 75WG	Infinito®#	Shirlan

Herbicides		
Afalon*	clomazone* (approved formulations)	Sencorex® WG*
Artist®*	linuron* (approved formulations)	

*Pre-emergence crops only.

Physically compatible with constant agitation.

Do not tank-mix Harvest with Ranman Twinpack.

Always maintain constant agitation of the sprayer tank during mixing, transportation and application.

Recent Changes	
08/04/10	Clomazone and Artist herbicides added.
